个人简介

Ahmed G. Radwan is the VP for Research at Nile University and a Professor at Cairo University, Egypt. His research interests include Engineering Mathematics, Fractional - order circuits and systems, memristor, chaos, and computational. He has numerous well - cited publications, such as "On the stability of linear systems with fractional - order elements" (388 citations in 2009) and "Fractional - order sinusoidal oscillators: design procedure and practical examples" (347 citations in 2008).

近年发表的论文
