个人简介

John D. Cressler is the Schlumberger Chair in Electronics and a Professor in the School of Electrical and Computer Engineering at Georgia Tech. With a B.S. in physics from Georgia Tech and M.S. and Ph.D. in applied physics from Columbia University, Cressler's research focuses on high-speed silicon-based microelectronic devices and circuits. He has authored over 700 technical papers and five non-fiction books. Additionally, he writes historical fiction, particularly interfaith love stories set in medieval Muslim Spain. Cressler can be reached at cressler@ece.gatech.edu.
