个人简介

Saibal Mukhopadhyay is the Joseph M. Pettit Professor at the School of Electrical and Computer Engineering, Georgia Institute of Technology. He earned his B.E. in Electronics and Telecommunication Engineering from Jadavpur University, India, and his Ph.D. in Electrical and Computer Engineering from Purdue University. Prior to joining Georgia Tech, he worked as a research staff member at IBM T.J. Watson Research Center. His research focuses on low-power, variation-tolerant, and reliable VLSI systems, technology-circuit co-design methodologies, and ultra-low power nanoelectronics. He has authored over 90 papers and filed seven U.S. patents.
