个人简介

Rosario Schiano Lo Moriello is a researcher in Mechanical and Thermal Measurements at the University of Naples Federico II. His research interests include MEMS inertial platforms, IoT sensor networks, compressive sampling, smart sensors, and wireless system measurements. He has been cited 1940 times in total and 1029 times since 2020, with an h - index of 24 and an i10 - index of 58. He has co - authored papers with many researchers and has published numerous articles in well - known journals and conferences, such as IEEE Transactions on Instrumentation and Measurement and Sensors.

近年发表的论文

Tendon Anomaly Identification in Prestressed Concrete Beams Based on an Advanced Monitoring MEMS and Data-Driven Detection of Structural Damage
